

I have a WordPress website built with the Divi theme at <https://www.infocusnet.org/>

It has the Ninja Forms plugin in place. Whenever I try to fill out and submit a form at <https://www.infocusnet.org/request-proposal/> or <https://www.infocusnet.org/contact/> , the form data does not get submitted.

I have already ensured everything is updated. I also cleared the cache. Since one of the plugins in place is WP-Optimize, I turned off HTML and CSS minification in the Divi Theme Options settings.

When viewing the different Ninja Form titles, I was wondering if the coding below 'Template Function' is normal:

<input type="checkbox"/> Form Title	Shortcode	Template Function	Date Updated
<input type="checkbox"/> Contact Form	[ninja_forms id=1]	<pre>if(function_exists('ninja_forms_display_form')){ ninja_forms_display_form(1); }</pre>	April 05, 2016
<input type="checkbox"/> Request Proposal	[ninja_forms id=5]	<pre>if(function_exists('ninja_forms_display_form')){ ninja_forms_display_form(5); }</pre>	May 15, 2019
<input type="checkbox"/> 360-Degree Online Coach Assessment	[ninja_forms id=23]	<pre>if(function_exists('ninja_forms_display_form')){ ninja_forms_display_form(23); }</pre>	November 13, 2020
<input type="checkbox"/> Contact Form	[ninja_forms id=25]	<pre>if(function_exists('ninja_forms_display_form')){ ninja_forms_display_form(25); }</pre>	April 05, 2016
<input type="checkbox"/> Collective Registration	[ninja_forms id=21]	<pre>if(function_exists('ninja_forms_display_form')){ ninja_forms_display_form(21); }</pre>	September 18, 2017
<input type="checkbox"/> Form Title	Shortcode	Template Function	Date Updated

These are all the plugins currently in place:

Plugin Description Automatic Updates
